NEW YORK, April 25.—The Times' Washington special says: The Internal Revenue bill will probably be reported to-morrow. Since the bill passed through the hands of the Committee the following changes have been made on a second consideration of its items. The tax on stock and bullion brokers was fixed at two per cent. on the hundred dollars. The tax on exchange brokers remains as heretofore, but are put in under the same stamp law as others. The tax on candles has been but are put in under the same stamp law as others. The tax on candles has been finally fixed at five per cent. and all rolled iron at \$3 per ton.

Steinway Pianofortes. These Pianos are acknowledged the best instruments in America as well as Europe, having taken (%2) thirty-two first premiums, gold and silver medals at the principal fairs neld in this country within the last ten years, and in addition thereto they were awarded a first prize medal at the great International Exhibition, London, 1882, for powerful, clear, brilliant and sympathetic tone, with excellence of workmanship.

Every Steinway Piano warranted five years. Samples open for inspection, and orders effected promptly at

Artists to Steinway & Sons.

New York, December, 1814.

The Planofortes, Grand, Square and Upright, manufactured by Messrs, Steinway & Sons, have established for themselves so world-wide a reputation that it is hardly possible for us to add anything to their just fame. Having thoroughly tested and tracel these instruments personally for years, both in public and private, it becomes our pleasant duty to express our candid opinion regarding their unquestioned superiority over any other Plano known to us.

Among the chief points of their uniform excellence are: Greatest possible depth, richness and volume of lone, combined with a rare brilliancy, clearness and perfect exenness throughout the entire scale, and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or poverful touch.

This peculiarity is found excusively in the Steinway Plano, and together with the matchless precision, elasticity and promptness of action always characterizing these instruments, as well as their unequaled durability under the severest trials is truly surprising and claims at once the admiffation of every artist. We therefore consider the

billity under the severest trials, is truly sur-prising and claims at once the admiration of every artist. We, therefore, consider the Steinway Pianos in all respects the best Instru-ments made in this country or in Europe, wae them solely and exclusively ourselves in public or private, and recommend them invariably to our friends and the Public. We have at different times expressed our opinion regarding the Pianos of various makers, but freely and unhesitatingly pro-nounce Messra, Steinway & Sons' Pianos superior to them all.
